RFT OVERVIEW

1. Scope of RFT

1.1 Purpose

- 1.1.1 This Request for Tender seeks tenders from audit firms capable of delivering high quality external audit services to the Auditor-General for NSW (Auditor-General) for the Auditees listed in Schedule 1, and as described in the Statement of Requirements in the Tendering Conditions.

1.2 Contract and Duration

- 1.2.1 The Auditor-General (the Principal) will enter into a contract in the form of the 'Agreement to Provide Auditing Services' (the Head Agreement) with the successful tenderer to provide external audit services to the Principal.
- 1.2.2 The contract will cover the audits of the financial years ending 31 December 2023 to 31 December 2025 with an option to extend for the 31 December 2026 and 31 December 2027 financial years.

1.3 Payment for auditing services

- 1.3.1 Tenderers will be required to provide a fixed price for the external audit of the Auditee for the year ending 31 December 2023. Such amount is exclusive of direct reimbursable expenses which are capped. The method of escalation after the first year will be based on the lower of the Consumer Price Index - All Group Sydney (ABS Catalogue 6401.0) or 2.5 per cent.
- 1.3.2 It is not envisaged the price for the audit services will deviate from the agreed prices over the life of the contract, unless the scope of the audits change and the Principal agrees to the changes.

1.4 NSW Government requirements

- 1.4.1 The successful tenderer must comply with applicable NSW Government policies, guidelines, and Standards, as listed in the Head Agreement including the NSW Government Procurement Policy Framework.

2. RFT Structure

2.1 Tendering Conditions and Statement of Requirements

- 2.1.1 This provides the terms, conditions and processes governing the tender phase of the RFT. The Statement of Requirements is a detailed description of the external audit services to be provided by the successful tenderer including technical specification, service levels and performance framework. Taken together with the accepted parts of the tenderer's response, this will form part of the Head Agreement.

2.2 Tender Response

- 2.2.1 This is the response prepared by the tenderer to enable the Principal to evaluate the tenderer's offers. The tenderer must also complete Attachment A 'Supplementary Tender Response', Attachment B 'Audit hours and fees' and an online Third Party Information Security self-assessment.

2.3 Head Agreement

- 2.3.1 This is the 'Agreement to Provide Auditing Services' which is available as a specimen version on the Audit Office of NSW (the Audit Office) website at <https://www.audit.nsw.gov.au/audit-service-providers>. Tenderers should note the Audit Office is currently reviewing the current agreement and there may be some minor changes to the terms and conditions. This includes the addition of standard clauses relating to managing the risk of modern slavery in the supply chain. Once the agreement is updated, the Audit Office will inform tenderers.

It contains the terms and conditions of the contractual arrangement proposed to be made between the successful tenderer and the Principal to enable the supply of the external audit services.

3. Performance Framework

The Principal is committed to engaging audit firms who are able and willing to continually improve their performance during the term of the proposed Head Agreement.

6.20 Acceptance or Rejection of Tenders

6.20.1 The Principal is not bound to accept the lowest priced tender.

- a) any Alternative Tender or part of an Alternative Tender, when submitted with a Conforming Tender

6.21 Post Tender Negotiations

6.21.1 Before making any determination as to acceptance or rejection of tenders the Principal may, at its discretion, elect to conduct limited negotiations with preferred tenderers, including those who have submitted Alternative Tenders or who have submitted Conforming Tenders, to mutually improve outcomes. The Principal will not enter into negotiations to amend the Head Agreement.

6.21.2 If the Principal considers that none of the tenders are fully acceptable either because of non-conformance or because they do not represent sufficient value for money, but considers that full conformity is achievable, negotiations may be conducted with the tenderer that submitted the most conforming tender based on the evaluation criteria. The purpose of the negotiations will be advised by the Principal and made clear to the participants before the commencement of negotiation.

- 6.21.3 The Principal may at its absolute discretion elect to conduct post tender negotiations under 6.21 with more than one tenderer in the event that it decides that the closeness of the tenders or timing constraints warrants doing so.

6.22 Exchange of Information between government agencies

- 6.22.1 By lodging a tender, the tenderer will authorise the Principal to make information available, on request, to any NSW Government agency. This includes information dealing with the tenderer's performance on any prior contract that has been awarded. - 6.22.2 The provision of the information by the Principal to any other NSW Government agency is agreed by the tenderer to be a communication falling within section 30 of the *Defamation Act 2005* (NSW), and the tenderer shall have no claim against the Principal and the State of New South Wales in respect of any matter arising out of the provision or receipt of such information, including any claim for loss to the tenderer arising out of the communication

6.23 Method of Acceptance

- 6.23.1 Acceptance of a tender or part tender will be subject to the execution of a Head Agreement. Until the Principal and the successful tenderer(s) execute a formal Head Agreement, there will be no legally enforceable agreement concluded between them.

STATEMENT OF REQUIREMENTS

7. Background and Auditing in the Public Sector

- 7.1. The Auditor-General for NSW (the Auditor-General) is an important pillar of the accountability framework for the public sector in New South Wales. The Auditor-General is accountable to the NSW Parliament and is responsible for audits and related services.
- 7.2. The Auditor-General conducts financial and performance audits, principally under the *Government Sector Audit Act 1983* (GSA Act) and the *Local Government Act 1993* (LG Act), and examines allegations of serious and substantial waste of public money under the *Public Interest Disclosures Act 1994*. The Auditor-General is supported by the Audit Office, a statutory authority established under the GSA Act.
- 7.3. The Auditor-General must act in the public interest without fear or favour to maintain public and Parliamentary confidence. The powers and duties of the Auditor-General are primarily set out in the GSA Act. However, other Acts, such as the LG Act and the Corporations Act may also give rise to powers and duties.
- 7.4. The GSA Act provides that the Auditor-General is appointed by the Governor and may hold office for a period not exceeding eight years. The office of Auditor-General is an independent appointment, free from ministerial control.
- 7.5. The Auditor-General has the functions conferred or imposed on the Auditor-General by law. They include:
 - a) to audit the Consolidated State Financial Statements and any other financial reports that the Auditor-General is required or authorised to audit by law (for example local councils under the LG Act)
 - b) to provide any particular audit or audit-related service to Parliament at the joint request of both Houses of Parliament
 - c) to provide any particular audit or audit-related service to the Treasurer at the request of the Treasurer or to any other Minister at the request of that other Minister
 - d) to report to Parliament as required or authorised by law
 - e) to do anything that is incidental to the exercise of the Auditor-General's functions
 - f) to conduct an audit of all or any particular activities of an auditee to determine whether it is carrying out those activities effectively and doing so economically and efficiently and in compliance with all relevant laws.
 - g) to provide any audit-related service to a local or county council (council) or joint organisation at the request of the council / joint organisation or at the request of Minister for Local Government or the Secretary of the Department of Planning, Industry and Environment.
- 7.6. The Audit Office's vision is 'Our insights inform and challenge government to improve outcomes for citizens' and its purpose is 'To help parliament hold government accountable for its use of public resources'. More information about the Audit Office, its operating environment, its strategic risks and how it wants to operate can be found in the Corporate Plan at <https://www.audit.nsw.gov.au/who-we-are/corporate-plan>.
- 7.7. The successful tenderer will be appointed as an Audit Service Provider (ASP). More information about the role and responsibilities of an ASP are set out in the 'Agreement to Provide Auditing Services' (i.e. the Head Agreement) and the ASP Manual. These documents can be accessed at <https://www.audit.nsw.gov.au/audit-service-providers>. The Principal reserves the right to amend the ASP Manual at any time during the contract period to meet new or revised statutory obligations or central NSW Government policy directives.

- 7.8. The Audit Office's values are: pride in purpose; curious and open minded; valuing people; contagious integrity; and courage (even when it's uncomfortable). It is expected that ASPs live these values in the conduct of their audit work.
- 7.9. The external audit services provided by the successful tenderer will be subject to oversight by the Audit Office.
- 7.10. The Principal seeks to ensure contracts with ASPs are outcomes focused, and encourage rather than inhibit efficiency or innovation from internal or external providers. The Principal needs to demonstrate to New South Wales Parliament that all public sector financial audits:
- a) provide value for money to Parliament and the audited entity
 - b) are sensitive to risks and needs relevant to the sector
 - c) comply with professional standards and legal requirements.
- 7.11. The following information for each auditee will be available to tenderers from upon receipt of a signed non-disclosure agreement:
- a) schedule of accounting systems
 - b) details of any major events that may impact the 31 December 2023 audit

- 7.12. To access the information listed above, tendering firms will be required to sign a confidentiality and non-disclosure agreement.
- 7.13. The tenders will be evaluated by a Tender Evaluation Committee (TEC) comprising representatives from the Audit Office. The auditees will be given the opportunity to provide feedback on price-redacted versions of each tender. Tenders will be assessed against the evaluation criteria listed in Schedule 2. Information supplied by the tenderer in the Tender Response will contribute to the assessment against each criterion.

8. Description of Services

- 8.1. The external audit services provided shall include an attest audit coverage which can be defined as the audit work necessary to enable an opinion to be expressed as to whether a financial report is presented fairly in accordance with the requirements of:
- a) the GSA Act and Regulation (where applicable)
 - b) other applicable statutory requirements
 - c) Australian Accounting Standards (including Australian accounting interpretations)
 - d) other mandatory professional reporting requirements forming part of the financial reporting framework.
- 8.2. The scope of external audit services also includes:
- a) sufficient audit work to form an opinion on the US Department of Education financial responsibility supplemental schedule (see Note 10.8 of the audited 2022 financial statements)
 - b) an audit of the Higher Education Research Data Collection (HERDC) return to form an opinion as to whether, in all material respects, it is prepared in accordance with the [Higher Education Research Data Collection - Specifications](#) issued by the Commonwealth Department of Education.
- 8.3. When forming an opinion on financial information, the ASP must consider the auditee's compliance with statutory and other requirements.

- 8.4. The external audit services include collating information for the preparation of the Auditor-General's Report to Parliament. Recent reports can be accessed at <https://www.audit.nsw.gov.au/our-work/reports>
- 8.5. As a general rule, the ASP is expected to attend audit and risk committee meetings held by the auditee throughout the year. This may be via physical presence at the meeting or through teleconference or video conference facilities.
- 8.6. In addition to the attest audit coverage, the services provided should also include reasonable services which a professional auditor would normally supply as part of an audit. These could include services such as evaluating the effectiveness and efficiency of internal control and accounting systems, reviewing management procedures, providing interpretations of relevant new or revised accounting standards, legislation, etc. The Auditing Services to be provided by the ASP may include such other services as agreed to in writing between the ASP and the Principal.
- 8.7. The Audit Office holds a privileged position as one of a small number of independent agencies that supports accountability and provides assurance that is integral to our system of government. The role of the Auditor-General in New South Wales has a proud history stretching back to 1824. Its core purpose, to scrutinise and hold government to account, has not wavered in all this time.
- 8.8. Public sector audits provide important checks and balances to our system of government. They ensure there is accountability, integrity and transparency in the management and use of public resources, which is fundamental in building community trust.
- 8.9. The broader mandate of a public-sector audit means balancing audit efficiency with audit effectiveness. Achieving the latter can mean investing more time on certain procedures, focusing on key areas or themes each year, and applying lower thresholds when determining the scope of our audits.

- 8.10. An ASP is required to:
- a) understand and apply the wider mandate of the Auditor-General, as outlined above
 - b) understand the additional reporting requirements to Parliament and those charged with the governance of auditees
 - c) audit the auditee's compliance with significant legislative requirements
 - d) develop an audit strategy that is both efficient and meets the needs of Parliament, and assesses the effectiveness of systems of internal control
 - e) focus on generating relevant and actionable insights and outcomes
 - f) move from an ethos of separation – separate teams, roles, contract auditors and stakeholders – to one of connection where ASP leads collaborate with the Audit Office's engagement team and are viewed as one audit team from the perspective of the auditee
 - g) be agile in how they work, promoting creativity, collaboration, flexibility and diversity of opinions.
- 8.11. The increased public scrutiny and the unique position of the Audit Office as the auditors of the state, university and local government sector has highlighted the need to address the 'public sector auditor' role.
