

# PREAMBLE

## Charleyong Bridge Replacement

**Contract No.:** 18.0000303651.0766

**Revision:** July 2018

**LGA:** Queanbeyan-Palerang Regional Council

## PREAMBLE

---

The Works in this Contract comprise of the construction of a new 150m long concrete bridge on Nerriga Road (MR92) spanning over Mongarlowe River. The bridge will provide two 3.5m traffic lanes with 2.0m shoulders and will replace an existing aging Allan Truss timber bridge that will subsequently be demolished by others.

The construction works include, but not limited to earthworks, piling, abutments, retaining wall, piers, precast girder and parapet erection, deck and asphaltting including the design and construction of temporary working platforms required for the work.

The roadworks component of the project will be done by others; however a minor portion of roadworks at abutments will be required to tie-in.

It is a combined Schedule of Rates and Lump Sum, GC21- Construct only Quality Assurance Contract.

## Prequalification

The Contractor must be prequalified with Roads and Maritime Services under the Prequalification System for Civil (Road and Bridge) Construction with the following categories:

- Bridge Works: B3
- Financial Level: F10

Additional requirements for specific components of Work Under the Contract are detailed in RMS Specification G1.

## Locality Plan

The project is located in Marlowe NSW, 27.5km North East of Braidwood on Nerriga Road.
