PREAMBLE

This contract is for the Kings Highway, Nelligen Bridge Replacement between approximately 200m east of Bridgeview Road and 400m west of Wharf Street; including intersections and adjoining roads. The limits of works are as shown on the Drawings.

It is a Schedule of Rates and Lump Sum QA Contract – Contract No. 18.0000303651.1074

The project involves the construction of a new 330-metre-long bridge to the north of the existing Kings Highway bridge over the Clyde River and the upgrading of approximately 1.4km of the Kings Highway approaches (including partial realignment) to the new bridge on both sides of the river, including upgrades to intersecting roads.

The works include, but are not limited to bridgeworks, retaining walls, earthworks, pavements, stormwater drainage, footpaths/ pedestrian access, public utility adjustments/ protection, street lighting and landscaping.

PREQUALIFICATION

The Head Contractor must be prequalified at Roadworks Class R3 (or higher), Bridgeworks category B4 and Financial Level F50 (or higher) and must hold current accreditation under the NSW Government WHS Management Systems and Auditing Guidelines (5th edition) for RMS work at the time of closing of this tender.

LOCALITY PLAN
